Reporting No: **12**   Week No: **12**   From : **27/02/2023** To : 0**3/03/2023**
Project ID: **PRJ2022DCE022**
Project Title: **Web-IMS (Intelligent Medical Software)**

WEEKLY REPORT

Work done in last week (Attach supporting Documents):

1. Training on code structure and common rule to be followed while coding of live project.
2. Prepared a detailed document on files which are required for creating any New API.
3. Understood the flow of API through different services, models and business logic.
4. Understood the database table and SP creation rules and implementation of required fields.

Plans for next week:

1. Create a tables and SP for given task by following given criteria.
2. Create a API for CRUD operation on created table by following companies code structure.
